

# VIVAX

## Air Fan Catalogue 2023.

# VIVAX

Simply good.

# Present in more than 35 countries.

**Vivax** is a Croatian brand present on the market since 2004 and since then it has made life better for a large number of people through quality devices at affordable prices.

Vivax small home appliances are characterized by ease of use, attractive and modern design, **affordable prices** and high quality.

In the rich offer of **Vivax** fans, you will find a solution that will cool your space in a short time and make your stay in it more pleasant.

# The feeling of home. FOREVER.

The newest VIVAX fan series showcases cutting-edge technology, delivering top-notch cooling performance while simultaneously purifying your air and minimizing energy usage. Our ultra-efficient motors and noise-reducing systems generate robust yet unobtrusive airflow, fostering a serene and comfortable atmosphere within your home. With their sophisticated, contemporary designs, our fans seamlessly blend into any interior, rendering them an exceptional choice for both home and office environments.

Bladeless Fan  
TFB-105MP

VIVAX TFB-105MP's HEPA filter adeptly removes allergens such as dust, pollen, mold, and pet hair. This significantly improves air quality, and supports a healthier living and working environment.

The coarse filter effectively captures larger dust particles, contributing to the allergen-free and dustless air.

Ionizer function maintains a refreshing climate, ensuring that your air remains clean and fresh.

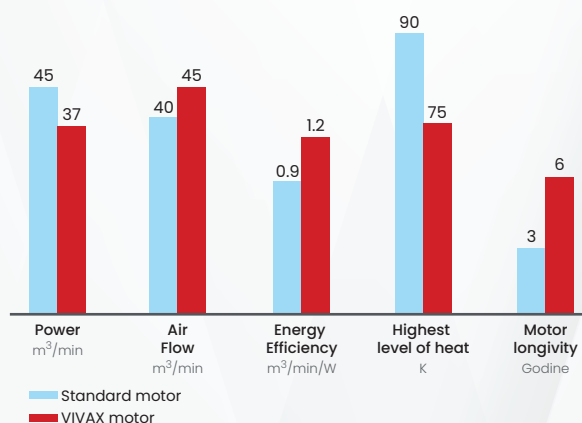

## AC and DC Motors of Top Efficiency

The high efficiency of VIVAX motors offers minimal energy consumption in relation to air flow, making VIVAX fans an ideal choice for any space.

VIVAX fans have reliable and efficient AC motors with copper threads that are ideal for spaces that require strong air circulation, while maintaining low energy consumption.

The VIVAX TFB-105MP has a DC motor that offers superior energy efficiency and quiet operation.

VIVAX fans stand out from other brands with their efficiency and durability. With their superior technology and innovative design, VIVAX fans use less energy, are more energy efficient and are built to last.

## Comfort in Your Home

The ionizer releases negatively charged ions that attract and neutralize positively charged particles in the air such as dust and allergens. This function improves the air quality in the room, ideal for people with respiratory problems and allergies. Combined with a quiet and economical DC motor, the VIVAX TFB-105MP Fan will provide you with a comfortable and healthy living environment.

## Silent Systems

VIVAX TFB-105MP is designed for ultimate comfort in your home with its quiet operation. You'll hardly notice it's there as it provides a powerful yet quiet airflow, ensuring a calm and relaxing environment. Whether you are sleeping, working or simply enjoying yourself, this fan will cool you down and give you a sense of comfort without disturbing noise. Several operating modes also contribute to this, the most notable of which is AI Smart, which simulates a pleasant, natural wind.

## Full Air Purification

HEPA filters filter the air and remove up to 99% of unwanted and harmful particles inside your space, such as allergens and dust. HEPA filters work by letting the incoming air pass through a fine HEPA layer that captures particles while allowing unobstructed air flow.

This technology helps people with allergies or respiratory problems, because by improving air quality, VIVAX TFB-105MP will reduce unwanted symptoms.

Timer	do 7.5 h
Remote	YES
Special functions / Operating mode *	Air Filtration Humidifier Ice Cooling Anion Function
Power supply	220 - 240 V~ 50 - 60Hz
Device dimensions	28 x 72 x 29 cm
Device weight	5.2 kg
Ean code	3856005179589

\* **Air Filtration** - **Humidifier** - **Ice Cooling** by flow of water cooled by ice trays (included in the kit)

**Anion function** removes positive ions in the air generated by electromagnetic waves emitted by electrical and electronic devices. Harmful positive ions in the air increase the secretion of hormones like serotonin and histamine which can cause various diseases such as asthma, bronchitis, etc. Anion function neutralizes and removes positive ions by creating anions in your space.

## Air Freshness

Innovative Ice Cooling function utilizes a flow of water that is cooled by ice trays within the unit. This cutting-edge technology creates a refreshing, cool breeze, making it the perfect addition to any indoor or outdoor setting during hot summer months.

## Comfort in Your Home

The ionizer releases negatively charged ions that attract and neutralize positively charged particles in the air such as dust and allergens. This function improves the air quality in the room, ideal for people with respiratory problems and allergies. Combined with a quiet and economical DC motor, the VIVAX TFB-105MP Fan will provide you with a comfortable and healthy living environment.

## 3-IN-1

3 devices in one:

- Ventilation
- Air cooling with cold water
- Room humidification

The cold water from the tank flows over the air filter, thus cooling and filtering the warm air from the room. Cooled and purified air is returned to the room. This process provides a much more comfortable atmosphere than a standard fan.

With the anion function, the air quality of your space will be even more pleasant.
